armour and ballistic protection

**STAB VEST**

- Unisex design
- Lightweight
- Offers maximum periods of wear
- Comfort oriented design for high manoeuvrability
- Extremely flexible outer cover with special liner giving enhanced body cooling properties
- Flat vest surface for concealed wear
- Fully washable cover
- Replacement and spare covers available for purchase
- Available as a covert tabard in white or black, an overt tabard in black, navy or hi-vis yellow

The Fortis Stab Vest protects the vital inner body parts from low-to-medium force stabs, thrusts, cuts and blows or attacks with sharp, edged or spiked weapons, including hypodermic syringes.

It is ideal for police, paramedics, taxi drivers, security officers, street wardens, traffic wardens and transport inspectors - in fact, anyone wanting to protect themselves, or their staff, from violent assaults where there is a risk from stabbing.

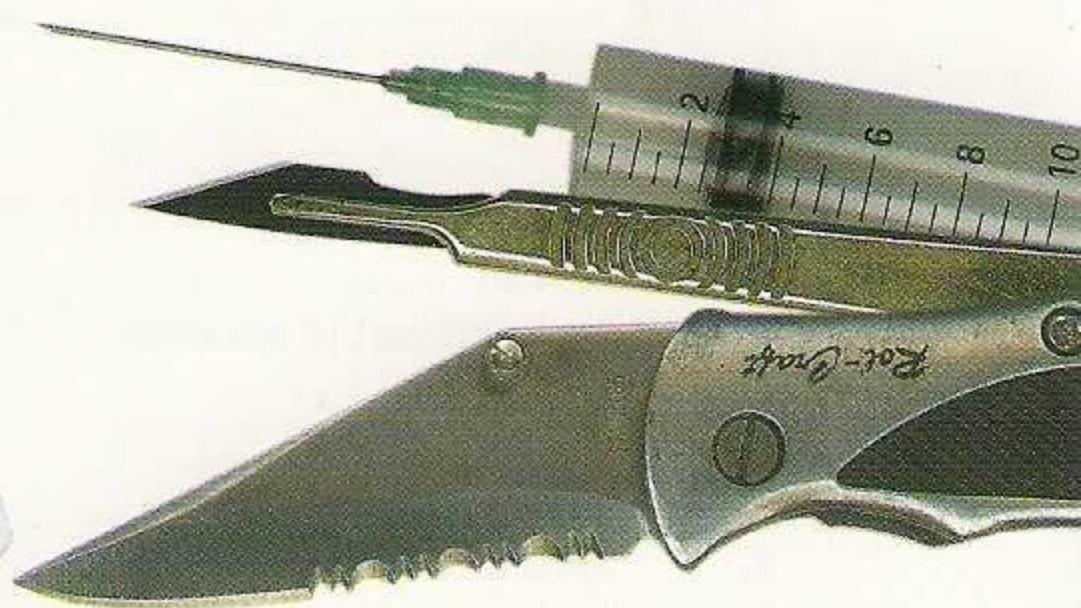

Tested and Certified to the United Kingdom's strict Home Office Police & Scientific Development Branch Standard KR1+SP1. All products are subject to in-house quality control and assurance standards according to ISO 9001.

Vests are guaranteed for 2 years

**Lifetime international repair service.**

If damage occurs to the armour panels (not covers) during an on-duty confrontation with sharp instruments, we will repair them free of charge. Simply enclose the original police report stating that your Fortis Stab Vest protected you, explaining how the damage occurred.

(Customers are responsible for all shipping costs). If any components are damaged due to neglect, misuse or abuse, the above guarantees are null and void.

## TECHNICAL DATA

Weight: Stab pack 1.5-1.8 kg (depending upon size) • Carrier/cover 0.5-0.6kg • Full unit 2.0-2.4 kg  
 Available in standard sizes to fit (UK inch) - S (36/38), M (40/42), L (44/46), XL (48/50), 2XL (52/54).  
 Certified to Home Office Specification KR1 + SP1 (KR1 is tested at a performance level of 24 joules of energy.  
 The average stabbing movement would normally only produce 10-15 joules of energy).

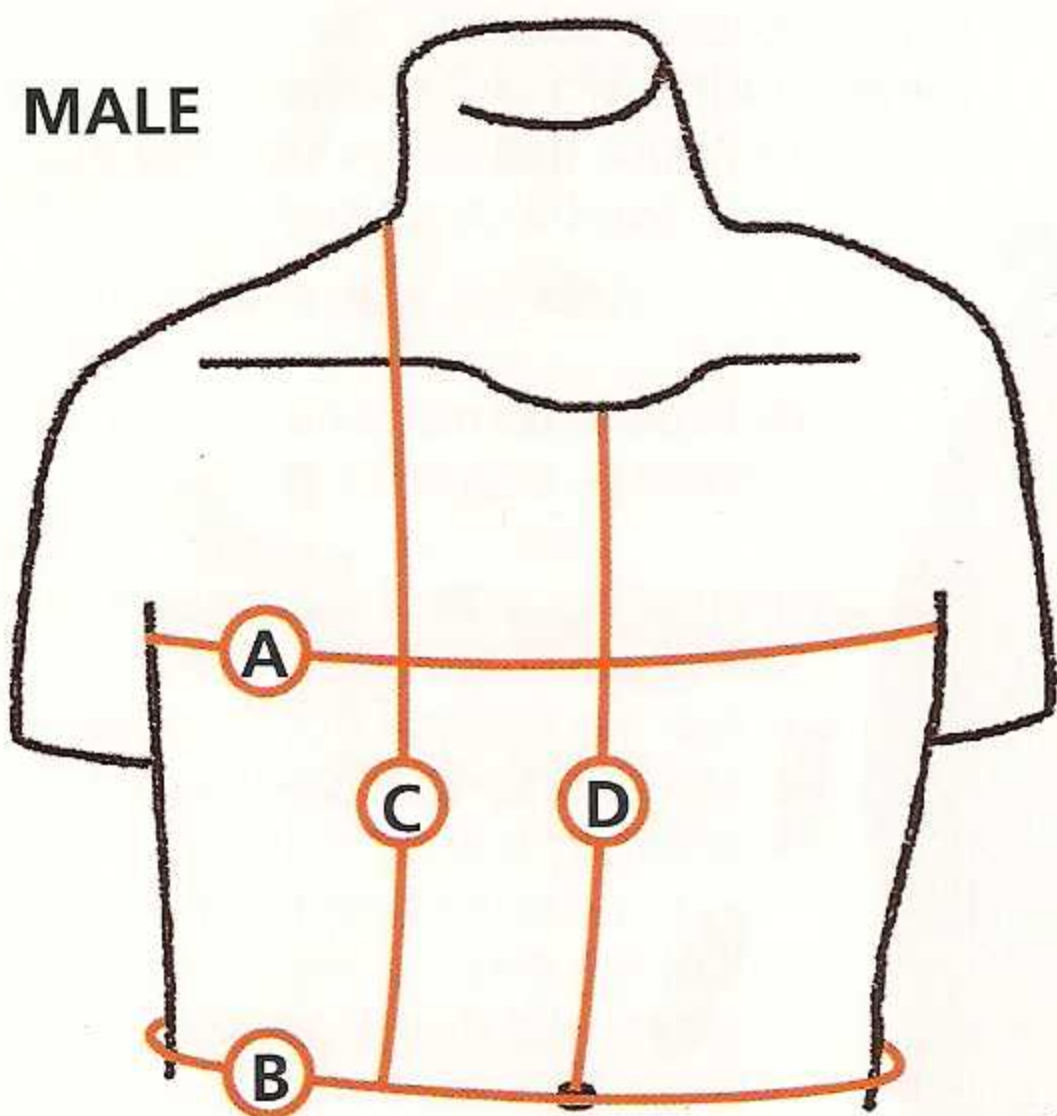

## Measure up for YOUR personal protection from the FORTIS STAB VEST

### BODY ARMOUR FITTING GUIDE

- |          |                          |  |
|----------|--------------------------|--|
| <b>A</b> | <b>CHEST MEASUREMENT</b> | We require the maximum reading whilst breathing in and holding the breath.   |
| <b>B</b> | <b>WAIST MEASUREMENT</b> | Take this measurement whilst wearer is standing and seated. When seated we need the widest measurement. This measurement is not your trouser size. |
| <b>C</b> | <b>SHOULDER TO WAIST</b> | From nape of the neck to the navel. Take this measure standing.  |
| <b>D</b> | <b>STERNUM TO WAIST</b>  | This is the point where the bottom of the tie knot usually rests. Take this measurement both seated and standing                                   |
